There has been a delay with Ching Company's order. They said they need more time to think it over. But, I have heard that there is a new company who I consider to be our opponent. They are negotiating a much lower price with them. They even offered a 5% discount. We need to do everything to keep this account.

- 2. According to the memo, what is the cause of the delay?

 - a. a fair and equal transaction?
 - b. compromising?

How to Negotiate

III. LANGUAGE BOX

In negotiations, the first conditional form (**if** + **present** + **future**) is used when we are more certain. The second conditional form (**if** + **past** + **would infinitive**) is more tentative: ex. If you agree to the new working conditions, we'll sign the contract now.

There are several ways to express a condition without using an if-clause.

A simple conditional with Suppose / Supposing + a verb in the present or past tense:

ex. Suppose they don't accept, what will you do? (if they don't accept...)

1st conditional form (if + present + future)

If + you + agree to the new working conditions, we'll sign the contract now.

2nd conditional form (if + past + would infinitive)

If + you + accepted 5%, we'd be prepared to negotiate the second point.

How do you manage changes in the company?

IV. SAY IT! Role-play with your teacher the situation below.

Bea is an economist who is applying for a new job in an international investment bank.

SAM: Let's talk about team work. How would you achieve a good working atmosphere in a multinational company?

think I'm quite a communicative person. I'm highly motivated and goal-oriented. If my team is getting the results then I can be a very enthusiastic leader. I strongly believe that a good leader should be very demanding. But I'm also realistic- the perfect atmosphere probably doesn't exist.

SAM: Yes but what about multinational teams?

BEA: I must admit I'm not so experienced when it comes to dealing with nationalities but I don't think my approach would be all that different, not if you're dealing with professionals. I think good communication would be my main priority.

SAM : Could you describe a recent situation in which you convinced a group to do some thing?

BEA: Yes, a few months ago I was able to convince a group of rather conservative European bankers that they should be more proactive in their work.

III. LANGUAGE BOX

When we want to add extra emphasis, especially when we introduce new information or to contrast with a previous statement, we can use the following forms, which are known as "cleft sentences"

Beginning a sentence with it + to be stresses the words we want to emphasize or contrast: It's Peter who's really interested in the idea.

Beginning with What focuses the attention to the final part of the sentence: What I need is an aspirin.

Using the expression with The thing (that)...
The thing that most interested me was their production system.

We can sometimes replace The thing with All: All we're asking for is a firm commitment from you.

Stresses the word we want to emphasize
It's + Peter who's really interested in the idea.
(noun)
Focuses the attention to the final part
What + I need is an aspirin.
(noun/ pronoun)
The thing (that)...
The thing that + most interested me was their production systems.

As shown in in the attendance list, almost 50% of the employees have been absent. This has caught the attention of the Academic Office. Students' complaints sheets are piling up, and have drastically increased compared to the last few quarters. Most of the complaints about the absent teachers'

Introduction

The purpose of this report is to remind teachers about the of the institutes' attendance policy. If there is the same amount of complaints next quarter, the Academic Department Heads will take disciplinary action. Inevitably they will be forced to revised the policy as follows:

the instructors involved the time with the most absences the instructors reasons of absence to be implemented revised attendance policy recommendation

Findings

Almost 50% of the instructors have been absent on Mondays, in both the First and Second class periods. The following points summarize our key findings. To be specific - Monday morning 08:10-09:00 and 09:10-10:00. Secondly, Fridays. Instructors are usually absent in the last period, 04:00-05:00 in the afternoon. Most instructors reasoned out in writing that they were not aware that they have classes at those times. On Fridays, most of the teachers explained that their students didn't show up for almost half an hour, therefore it was suggested they leave.

Conclusions

These incidents have raised many complaints on both the students' and the teachers' behalves. According to the teachers they were not given notice about absence and tardiness ahead of time.

Recommendations/Implementations

Due to this, each teacher will have to confirm their schedules for the following week, in person, at the Academic Office. During last periods, every teacher must stay in their assigned room until 04:45. After the time, if the student is still not present the teacher may leave.
