

### WH- Information Questions

If the item begins with question words (such as Who, What, Where, When, Why, or How), the question is usually a WH-Information question. They are the most common type of question on the exam. They require answers that provide specific information and shouldn't normally be answered with yes or no.

E.g. Where did you put the folder for the merger project?

× Yes, I did. No, I didn't.

✓ It's on your desk.

- Choice Questions

If the item begins with the question word Which, the question could be a Choice question. The expected answer should indicate a specific preference, and not with yes or no.

E.g. Which dress do you like better? × Yes, I do. No, I don't.

✓ (I like) The blue one.
