# **Part 3: Short Conversations**

Directions: You will hear a series of 10 short conversations between two people. You will be asked to answer three questions about what the speakers say in each conversation. Select the best re sponse to each question and mark the letter (A), (B), (C), or (D) on your answer sheet. The conversation will not be printed in your test book and will be spoken only one time.

### 2. **Part 3 Strategies**

A. Now that you know the directions for Part 3, you will not need to spend time listening to it when taking the test. Instead, use this time to read and understand the first three questions in the test book.

You may not have enough time to look at the four answer choices, but it does not matter. By just reading the questions, you will:

- get a general idea of the topic and context of the conversation
- identify the type of information you need to listen for.

B. As you listen to the conversation, ask yourself the following questions.

- Where are the speakers?
- Who are they?
- What is their relationship?

C. Between each question, there is an eight-second pause, i.e. a total of twenty-four seconds per conversation. If you read the questions before in advance, you should be able to answer them immediately, mark your responses on the answer sheet and start focusing your attention on the next three questions.

### 3. Part 3 Example

- (A) In a furniture shop
