My First Scuba Diving Experience

Yesterday is very special. I go scuba-diving for the first time. I am a little nervous but it was exciting. First, we take a boat to go to the diving site. Then, we wear all the necessary diving equipment (wetsuit, mask and snorkel, fins, air tank, etc.)

Once the instructor gives us the signal, we went into the water. At first, I have a hard time adjusting underwater but I started to enjoy it after a couple of minutes. I see a lot of sea creatures! We swim together with colorful fishes and we also find some coral reefs. The divers are also lucky that day because a sea turtle come and say hello to us. It was such an amazing experience.

Situation: Your friend did not attend classes yesterday. Ask the reason why he/ she was absent.
