**Goal 4 –**  
**Quality Education (2)**

## How important is education?

Basic literacy skills can help 171 million people get out of poverty.

12 million children could be saved from hunger if their mothers had secondary education.

People especially women with secondary education would have more right.

---

secondary education : education for children between the ages of 11 and 18

## Read and Answer

In the past 10 years, major progress has been made in access to education. However, there are still many children who do not go to school.

More than 140 million did not have the possibility to take the school-leaving examination. Eventually, they were not **qualified** to enter higher education or to graduate from school.

Some 750 million young people (over 15 years of age) are **illiterate**, and almost two thirds of them are women.

### **qualified**

having passed the exams or completed the training that are necessary in order to do a particular job

### **illiterate**

(of a person) not knowing how to read or write

## Read and Answer
