Hello, everyone! Mr. Tanaka has asked me to meet you both so that we can have a recap of our tasks. So, can you please describe your tasks?

Well, I sell the company's products and give important details to prospects through calls, trainings, and presentations.

As for me, I determine the sale and promo schedules and assist customers in selecting products based on specifications and regulations. We help each other to meet and exceed our target sales.

I'm glad to inform you that our customer support ratings have been impressive based on the reviews. You should thank yourselves for providing great customer service.

Do you have any suggestions on improving the skills in persuading customers?

Just be natural and make sure you don't sound like you're reading a script.

Got it, Sir! Is there anything else we should do?

Miku, have you seen Bo?
I haven't had even a glimpse of him yet.
I have something to discuss with him.

During his training, I always encouraged him to ask questions about everything he wasn't acquainted with yet.

His communication skills and learning capacity are indeed rare. Anyway, if you happen to see him, please tell him to come and see me in my office. I heard him talking to a customer a while ago. It's amazing how he can easily get a customer to buy anything.

Jackson

Hi, Aya! Have you adapted to the new graphic design software?

It offers more tools and allows you to work on more projects. It looks complicated at the beginning but after a few tries, it will be easier for you. It will also speed up your designing.

Trust me, it's not as difficult as you think. Call me if you need help.

Yes, I have. This was actually one of the software I used in my previous company. I am used to designing my cartoons using this software. How about you? What was your first graphic design software?

Not yet, but I am getting used to it. Why did we have to install this software?

I hope I will get accustomed to it quickly. There are so many incoming projects that I need to do in a short span of time.

Thank you, Jackson. You are an expert at dealing with this new software. Have you used it before?

I used to design my first projects in CorelDraw since it was easy to get the hang.

Yes. Aya is doing a great job. What's your question, Lina?

Reading the report, do you think she is qualified for the senior graphic designer?

Before I forget, we need to have the app launched by the end of this month, so I'd like to have the final layout submitted this week. May I add something, Mr. Yamada?

Yes, what is it?

I'm wondering if we could purchase some images rather than using copyright-free ones.

What's your reason for that?

Commercial images are usually more attractive than these free ones.

I see. You have my permission.

I'll send you the final design by email you this Friday.

Terrific. I guess that's all for now.

Sorry for interrupting, may I raise my concern? We will need more time to prepare for the launch. So is it possible for you to finalize the design tomorrow, Aya?

I think it's a bit challenging for me. But I will try my best!

Thank you so much!
