Lesson 17_ The Ice Cream Cone

- **Warm-up question**

Do you know
how the ice cream cone was invented?

- **Read and learn**

The Ice Cream Cone

The Americans **have enjoyed** ice cream in a cone for many years. In the beginning, **vendors** used glass cups to sell ice cream. But many of the people would forget to give the cups back or would break them by mistake. There was so much **loss**.

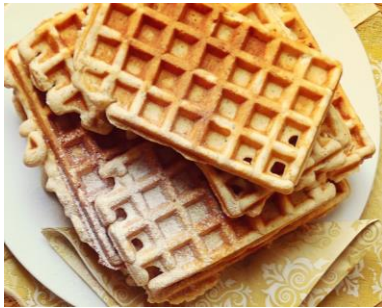

vendor

loss

The state that you no longer have something or have less of something.

- **Read and learn**

One day, Italo Marchiony, a vendor of ice cream invented the ice cream cone from **waffles**. He rolled the waffles and put them in the freezer to **retain** the shape. Marchiony's invention became popular. Since then, vendors sold ice cream in a cone.

waffle

retain

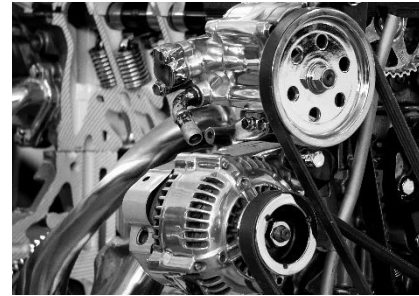

To keep something like the shape of it.

- **Read and learn**

In 1924, the cone **production** reached a record of 245 million cones. Now, a **machine** can make about 150,000 cones every 24 hours!

production

The process of producing goods to be sold.

machine

A device with moving parts and uses power to do work of a particular type.
