# Time to Talk

Lesson 15 Funny Burps

## Warm-up questions.

Did this happen to you before?

How did you feel?

## Read and learn.

# Funny Burps

We all burp once in a while. It might be funny at first, but it can make us feel **embarrassed** or even **annoyed** if it keeps going.

### **embarrassed**

— feeling shy or ashamed

### **annoyed**

— feeling a bit angry

## Read and learn.

We burp because we get **extra** air into our stomach.  
When we eat or drink, we **swallow** air at the same time. When the extra air needs to get out, it is forced out of our mouth as burps.

If we eat or drink too fast, or drink through a **straw**, we will get more burps.

**extra** - more than usual

### **swallow**

to take food from the mouth to the stomach

### **straw**

a thin tube used to sip a drink

## Read and learn.

**Fizzy drinks** can also give us burps because these drinks contain carbon dioxide.

Some people burp when they eat too much. In that case, burps seem like a warning and tell them to stop eating.

Usually, we do not need to worry about burps. They will stop naturally. However, try to be polite when you feel a burp coming on in front of people. Say "Excuse me" and cover your mouth.

**fizzy drinks** – drinks that contain carbon dioxide

## Read and do.

1. Use it in a sentence.

1. embarrassed

2. Act it out.

2. annoyed

3. Give an example.

3. fizzy drinks

4. Say its meaning.

4. extra

5. Draw it.

5. straw

6. Spell it backwards.

6. swallow

## Answer the questions.

### 1. When and why do we burp?

extra air

fizzy drinks

eating or drinking too much

### 2. What should you do when you burp in front of people?

## Let's have a review.

1. Burps can make us feel \_\_\_\_\_ or even \_\_\_\_\_ if they keep going.
2. We burp because we get \_\_\_\_\_ into our stomach.
3. When we eat or drink, we \_\_\_\_\_ air at the same time.
4. If we eat or drink too \_\_\_\_\_, or drink through a \_\_\_\_\_, we will get more burps.
5. \_\_\_\_\_ can also give us burps because these drinks contain carbon dioxide.
